WHO WE ARE

PT. RANIA BINA UTAMA is a company involved in the construction field as a General Contractor. The establishment of this company is our response to opportunities in the construction sector.

Equipped with **years of experience** in the field of Contractor, Project Management and Estimators from our own team, including experienced human resources management, we are committed to provide the best service to bring a high quality project to reality on time.

OUR SERVICES

Earth Works

Supplying excavation and ground preparation activities including:

- Site clearing and grubbing
- Excavation for foundations, trenches, or basements
- Filling and backfilling
- Grading and leveling the site
- Soil compaction and stabilization
- Building embankments or retaining structures

OUR SERVICES

Site infrastructure works

Prepare and equip a site with essential facilities and services before or during the main building works including:

- Roadworks & paving (internal roads, driveways, walkways)
- Drainage systems (stormwater, sewage, manholes)
- Water supply & plumbing networks
- Electrical & communication networks (power lines, lighting, data cables)
- Retaining walls & fencing
- Site grading and landscaping
- Utility connections (to municipal or external networks)

OUR SERVICES

Civil Works

Building the structural and infrastructural elements of construction, including:

- Foundation and substructure works (excavation, pile cap, concrete works)
- Structural framing (columns, beams, slabs, walls)
- Concrete and steel works
- External works (pavements, curbs, site grading)

OUR SERVICES

Architecture Works

Building the appearance of the building, including:

- Masonry and wall partitions
- Plastering, flooring, tiling, painting, and ceiling works
- Doors, windows, and façade installation
- Interior and exterior finishing
- Roofing and waterproofing works

OUR SERVICES

Interior works

Arrangement of design and elements within a building or room to create a suitable atmosphere, function, and aesthetics, including:

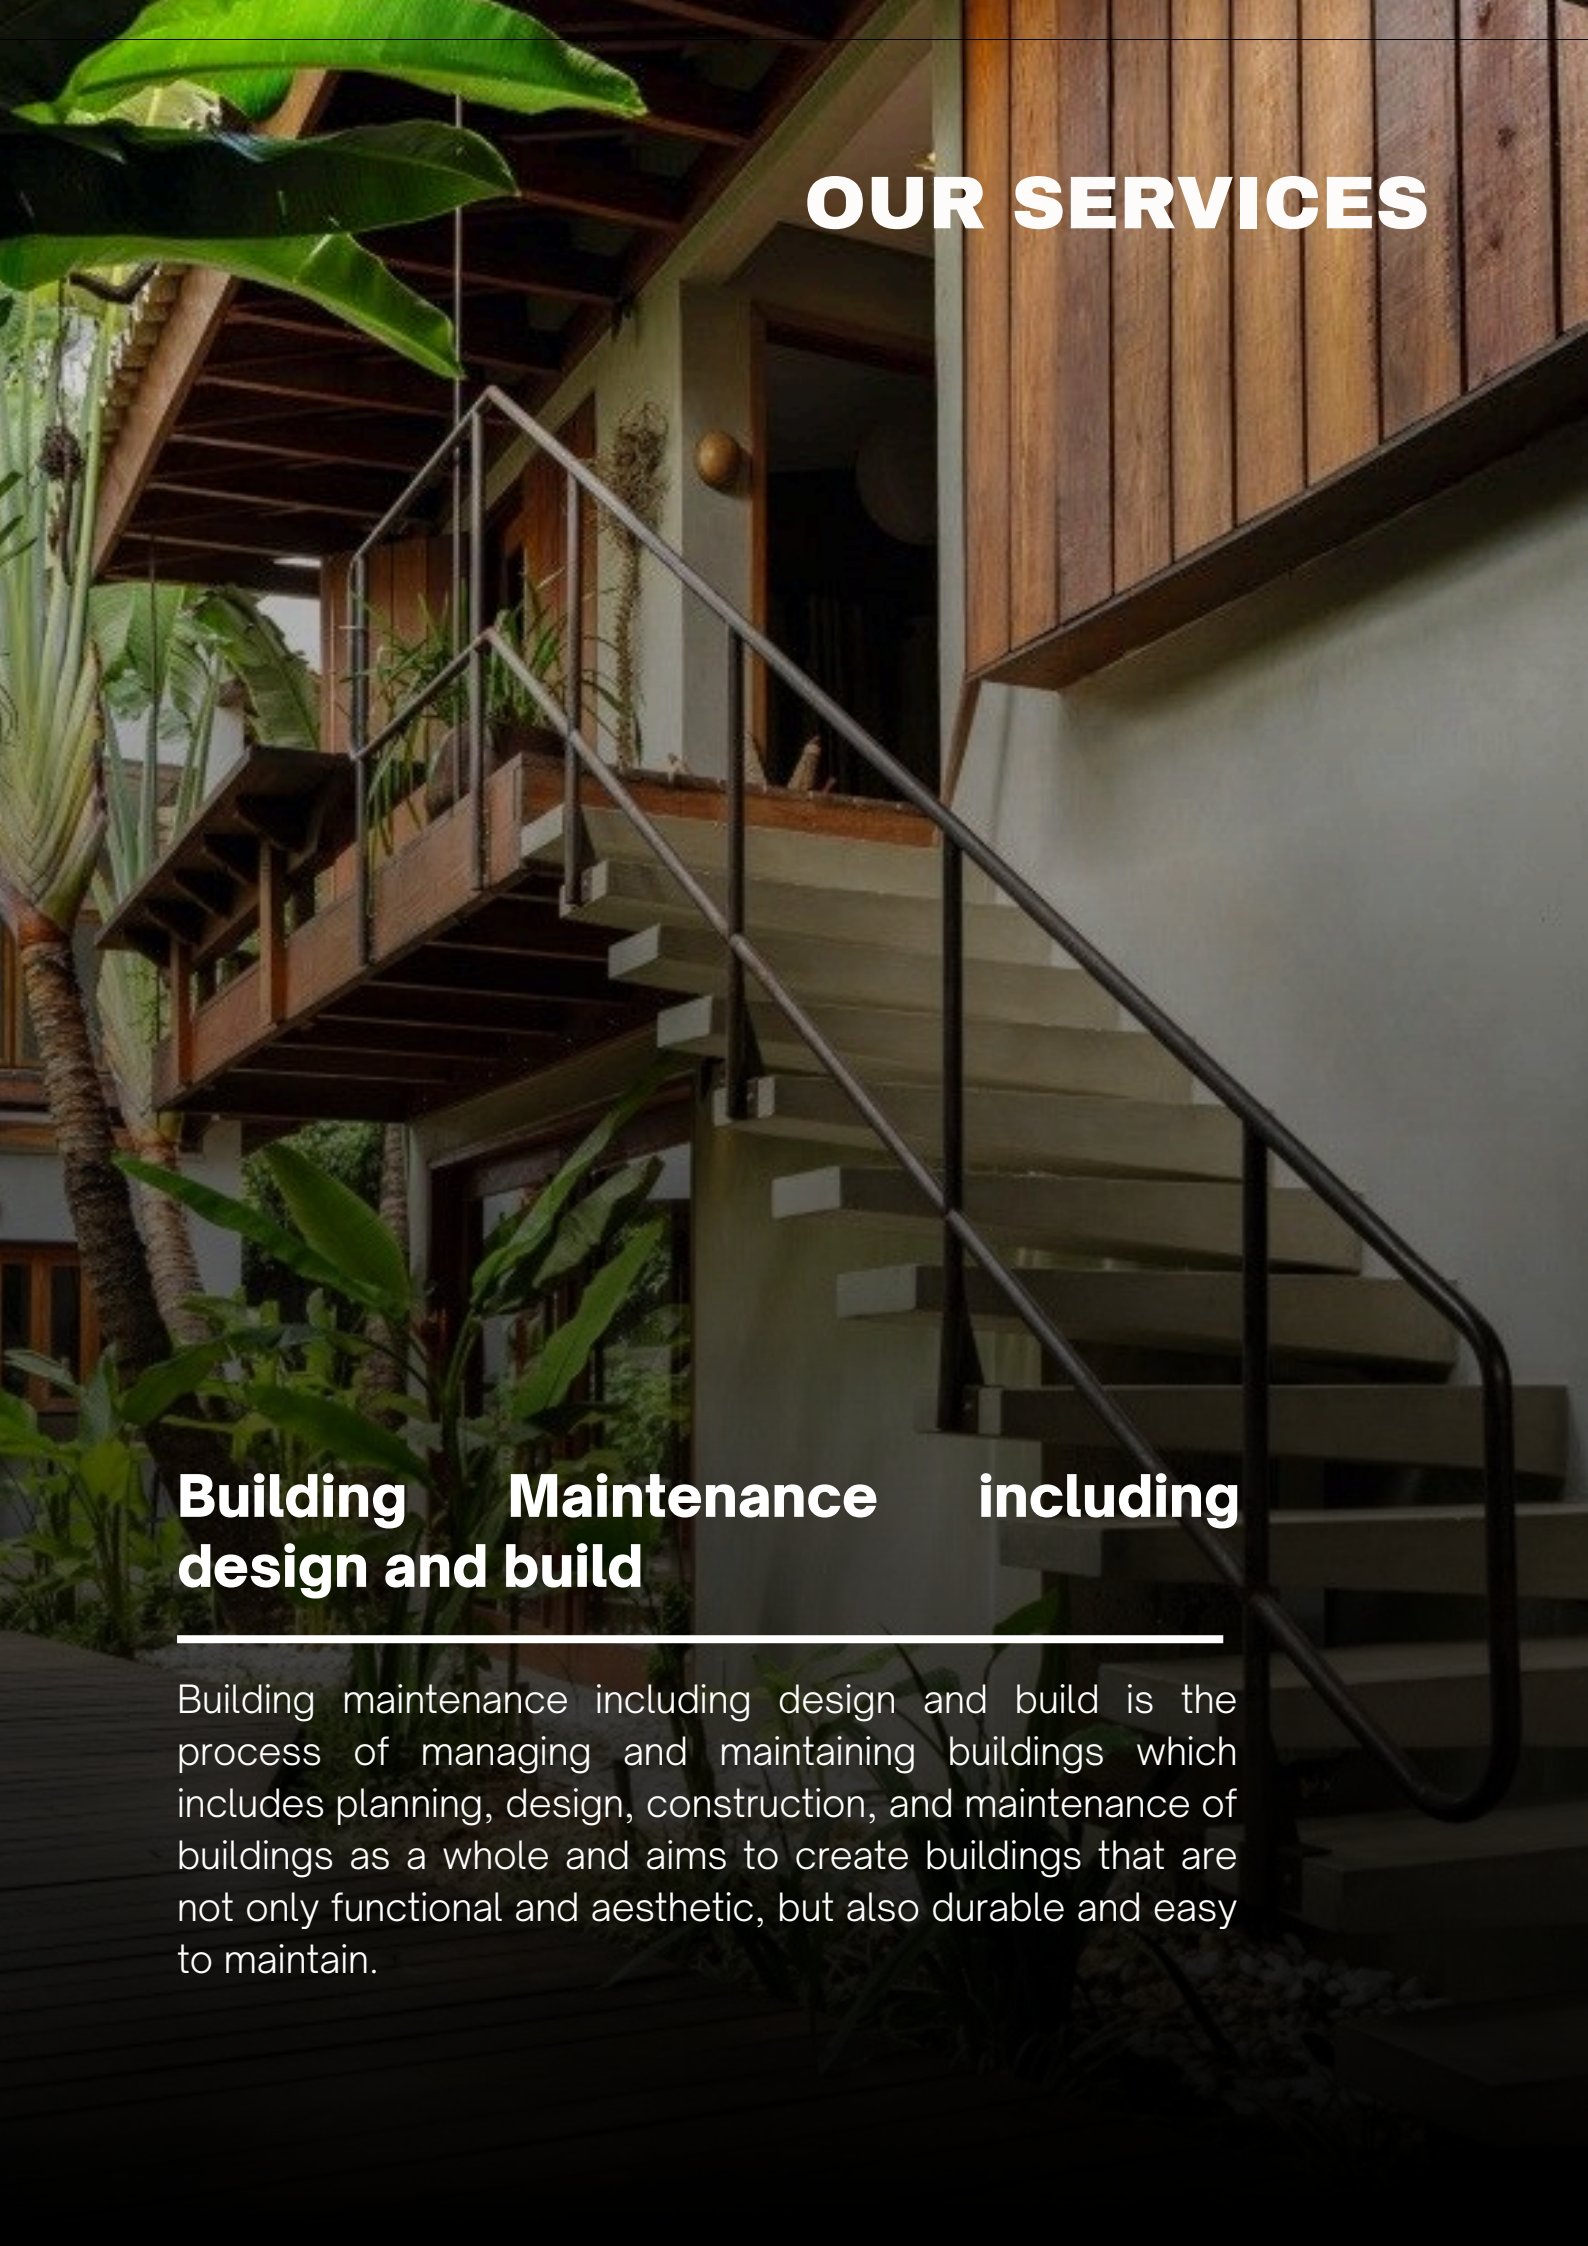

- Installation of partition walls
- Installation of special floors
- Special painting and finishing work
- Installation of special lighting systems
- Furniture installation

OUR SERVICES

Wooden Houses Construction

Building a house by using wood as the primary material, including for the building structure, walls, floors, and roof.

A photograph of a modern building with a prominent wooden staircase and a balcony. The building features a mix of wood and white walls. Large green plants, including a banana tree, are visible in the foreground and background, creating a lush, tropical atmosphere. The text 'OUR SERVICES' is overlaid in the top right corner.

OUR SERVICES

Building Maintenance including design and build

Building maintenance including design and build is the process of managing and maintaining buildings which includes planning, design, construction, and maintenance of buildings as a whole and aims to create buildings that are not only functional and aesthetic, but also durable and easy to maintain.

VISION

To become a leading professional construction company that is reliable, timely and quality focused.

MISSION

Realizing ideas by working responsibly for the best results and adapting to market values.
